

SMALL RESIDENTIAL ROOFTOP PV SYSTEMS

Over-the-counter review and permitting (same day review cycle)

Step 1: Complete the [Permit Application Form](#)

Step 2: Bring your permit application and plans to the [Development Services Center](#) on Wednesday between the hours of 8:30 am and 12:00 pm.

Note: You may either submit plans in your normal design format or use the City of Fremont's Standard PV format: [Standard Inverter Plan](#) for central inverter type systems or [Micro-Inverter Plan](#). *Please note that the City of Fremont standard plan formats may not be modified. If you find that your design does not fit into the parameters of the standard plan, you will need to provide your own design format.*

Electronic Submittal (3 business days review cycle)

Step 1: Complete the [Permit Application Form](#)

Step 2: Send electronic copies of your permit application, plans, and other required documentation to [Electronic Plan Review](#).

Click here for more information on [electronic submittals](#).
